

#253 Fresh & Clean NeutraQuat Disinfectant

Product Description:

A neutral pH detergent, disinfectant, deodorizing cleaner in one easy, labor-saving step. Effective against a wide variety of gram-negative and gram-positive microorganisms including staphylococcus aureus, streptococcus pyogenes and HIV-1. Instantly deodorizes and leaves a clean, natural fragrance while eliminating disease and odor causing germs. It inhibits the growth of mold and mildew and their odors. Clean & shine polished floors without rinsing.

Where to Use:

restaurants	hospitals	day care facilities
schools	nursing homes	health clubs
hotels/motels	night clubs	factories

Directions for Use:

READ ENTIRE PRODUCT LABEL PRIOR TO USE

Disinfecting: 2 oz. per gallon of water. Use on hard, nonporous surfaces.

Virucidal: 2 oz. per gallon of water. For disinfection against all viruses claimed, treated surfaces must remain wet for 2 minutes.

Mold and Mildew Control: 2 oz. per gallon of water. Thoroughly wet all surfaces completely. Let air dry.

Sanitizing Non-Food Contact Surfaces: 2 oz. per gallon of water. Treated surfaces must remain wet for 60 seconds.

Packaging & Other Information:

4/1 gallon case • 5 gallon pail • 55 gallon drum

Blue liquid – fresh & clean fragrance pH Neutral

NeutraQuat is the perfect choice for eliminating ice melt/rock salt residue from floors.

Add 1 ounce to washer to freshen & deodorize laundry—great softener too!
